Don't have a printer? Don't worry.
Here are steps to do it without the printed template.

1 Cut a string that is about 6 inches long.
2 Fold the string around the base of the finger, just below the knuckle.
3 Mark where the string ends with the pen.
4 Place the measured string on the ruler with the area marked on your right.
5 The number closest to the pen mark is the circumference of the ring in millimeters.
6 Find your size on the chart.

## Tips for Measuring

To achieve the most accurate ring size, here are some helpful hints:

- Measure your finger in warm temperatures, at the end of the day.
- Be sure to measure your finger before any sports practice or game.
- When considering a wide band, move up a ring size.
- Your ring size will be about a half size bigger on the hand you write with.
- The average women's ring size is size 6. The average men's ring size is a 10
